

USA Girls Preseason Event

COVID-19 Action Plan

Actions implemented by Event Staff during competition

- All competitors **must have** a signed Covid-19 waiver to turn in before competing.
- Masks or face coverings are to be worn inside the facility 100% of the time and will be strictly enforced by event staff and building security.
- Event Staff will use non-contact thermometers upon entering the facility; anyone with a temp above 100 will be turned away.
- Event Staff will regulate a 1:1 spectator to participant ratio at the door. Once the allowed number is reached the door will close.
- 8 mats will be used separated by at least 40 feet to allow adequate social distancing. Athletes will sit on opposite side of mat from one another and spectators opposite of them.
- Event Staff will mop and sanitize mat areas after every dual.
- Building will clean and maintain all areas affected by high foot traffic including bathrooms, isle ways, entrances, etc.
- Hand sanitizing stations are placed throughout the facility and also at each scorer's table.
- Wrestlers will not shake coaches' hands after the match (as traditionally done).
- High Risk spectators encouraged to watch online through Track wrestling.
- Building will have security guards enforcing the rules. Building reserves the right to eject anyone for being non-compliant at any time, **NO EXCEPTIONS!!!**
- EVENT STAFF will also try to comply with any expectations the COUNTY asks of them during event times.
